Strikers Desperate.

They Assemble in Large Numbers and Stone the Military.

CHARGED BY THE TROOPS.

BUFFALO, August 17th—A meeting between the police and strikers took place early in the evening in which one man was badly hurt and several received injuries from the clubs of the police. A crowd collected about 8 o'clock along the railroad tracks near the spot where the two regiments were encamped and the police drove them back several times. Each time the strikers returned in greater numbers, and each time they grew bolder. It was a nondescript mob, made up of switchmen, tough characters; attracted to the scene by the prospect of an encounter, women, the wives of the strikers, and citizens drawn there by curiosity.

But the toughs were in the majority and demonstrated it first by jeering at the soldiers and finally by pelting them with stones, pieces of turf, chunks of clay and anything else that came to hand. About 9:30 o'clock between 800 and 1,000 men were gathered along William street engaged in this pleasant pastime.

As the stones began to fall thick and fast Colonel Welsh ordered the regiment to present arms and a line was formed ready to charge on the crowd, which undismayed refused to fall back at these significant preparations.

CHARGED BY THE POLICE.

As Colonel Welsh was about to give the word Captain Patrick Kilroy, in charge of the police force, rushed forward and asked him to stop, saying: "Wait a minute. I'll settle them without any trouble. The Captain called out twelve of his best men and they charged on the crowd, using their clubs vigorously. The mob was completely routed and fled precipitately.

Some fell down and were bruised by others falling over them. A number of broken heads resulted from this encounter, and Philip Day, a coal and wood dealer, living in the neighborhood, who was particularly obstinate, was badly beaten by the police. His head was cut open in several places and he was unconscious when taken to his home. Dr. Barton, who attended him, does not consider his injuries dangerous.

The police have established a patrol and allow no one near the yards, while outside the city line the militia is on picket duty. Two arrests were made early in the evening, just in time to prevent bloodshed. Philip Slater, a brakeman, and James Hanlon, a switchman, tried to intimidate some men who were at work in the yard.

The men refused to quit work. Slater and Hanlon drew revolvers and were driving the men out of the yards when Patrolmen Patton and Detective Kranz, hearing the loud voices of the men, ran to the scene. Patton knocked Slater's revolver from his hand with his club and Krantz disarmed Hanlon. The prisoners were hurried to the station and locked up.

MORE TROOPS WANTED.

Brigadier General Doyle became alarmed at the state of affairs to-night. He has had 800 men on the scene during the day, but he considered the force inadequate. At 8 o'clock to-night he sent out a general order to the Fourth Brigade to report for duty with all haste. The number of men called out by the order of General Doyle is 1,000. In speaking to *The Times* correspondent respecting the necessity for reinforcements, General Doyle said:

"The property of the railroad covers such a territory that it is impossible to properly protect it with the the force we have now on hand. I have just heard that the Erie trains were stopped by about forty strikers fully twenty-five miles from this city. We will have to get sufficient men on the scene to cover all the territory."

Colonel Welsh of the Sixty-fifth Regiment, said, in reference to the clash of one of his companies with the strikers: The lieutenant tells me that the men were obliged to charge with their bayonets. The strikers resisted and thec bayonets were used very effectively. When the blade entered the person of one of the rioters and he uttered a yell, then one soldier knew that he was producing an effect. The lieutenant told me that his only cause for sorrow was in the fact that the bayonets in each case stopped at a depth of six inches, when they desired them to go clean through."

It was about 7:30 o'clock to-night when word was received in the city that two Erie trains had been boarded at Alden, twenty-five miles east of this city and the pins and links thrown away.

When the train was passing by the Alden station at a slow rate of speed about forty of the Buffalo strikers jumped aboard and by concerted action set the brakes. The train men were requested to leave the cars where they stood, and at last accounts they had not been moved.

ALMOST A CONFLICT.

MILITIA AND STRIKERS NEARLY COME TO HOSTILITIES AT HOMESTEAD.

PITTSBURG, August 16—A few non-union men almost precipitated a conflict between the militia and the locked out men at Homestead to day. The non-unionists came out of the mill and walked down Eighth avenue. A crowd of three hundred men began to jeer and jostle the men, who became frightened and started to run.

The jeering increased, and Acting Provost Marshal Major Crawford ordered a detail of soldiers sent out, who charged along the street on a run, scattering the crowd and protecting the mill workers from violence. There was considerable excitement for a few minutes, but no one was injured.

The Thirty-third street mill ran today as usual. Several of the non-unionists at this plant have been discharged for drunkenness. It was reported that a break down occurred in one of the departments this afternoon, but the manager denied that the difficulty was serious.

President Weihe, of the Amalgamated Association, announced a new signature to the scale this morning. It was that of the Ewalt Iron Company, of Louisville, Ky., where about 300 men are employed.

Mr. Weihe said the donations for the lock out men at Homestead keep coming in a continuous stream, and there is rather an increase than a decrease in the amounts received.

All s quiet to-night at Homestead. The mill management report everything moving smoothly, while the advisory committee, the large contributions for releif which they are receiving are not only encouraging but show them the fight can be maintained indefinitely. At Thirty-third street the situation is the same as yesterday.

Mr. Frick returned to Pittsburg last night and was at his office to-day.

An agreement has been arrived at between Jones & Laughlin's on the steel situation, and iron schedule alone remain to be settled. It is thought it will be adjusted without trouble and thus avert a lockout of 3,500 men.

RIGHT OF WAY.

GRANTED TO THE WILLIAMSPOT AND NORTH BRANCH RAILROAD.

A meeting of the directors of the Lake Makoma Land Association was held on Monday in the office of Judge Ingham, at Laporte, with all present except Mr. E. R. Payne, who is in Europe.

The meeting was called to take action in regard to granting the right of way to the Williamsport and North Branch railroad, through grounds of the association, from Nordmont, the present terminus of the road, to Dohm Summit, a distance of seventeen miles, to make connection there with the Lehigh Valley railroad. The right of way was granted, General Manager Welch agreeing to erect a handsome station at Lake Makoma.

The grove at the east end of the lake at Makoma will be converted into a large picnic ground, and a side tract for at least twenty-five cars will be laid.

Hon. James Kerr, Alexander Patton and George Good purchased five lots at the above place on Monday, for summer residences.

It is expected that cars will enter Laporte over the above road on Christmas day.

It is rumored that an electric railway will, before many months pass around, connect Lake Makoma with Eagle's Mere: also Highland Lake with Eagle's Mere.

The Democratic County Convention of Lycoming County was held Tuesday when the following ticket was nominated: For sheriff, Frank Fullmer of Muncy; for prothonotary, J. H. Hopkins; for district attorney, W. C. Gilmore; for representatives, W. R. Ritter, C. B. Seeley and Dr. G. G. Wood. H. H. Rutter, editor of the *Hughesville Mail*, came in next to Mr. Wood, the vote standing 72 for Wood and 64 for Rutter.

Republican Convention.

The republican met in convention Monday afternoon in the Court House. The meeting was called to order by county chairman C. E. Geyer, when W. M. Monroe of Rupert was chosen as president of the meeting, and J. C. Brown and R. G. Crispin secretaries. A call of roll of delegates showed the following to be present.

Berwick E., F. H. Eaton; Berwick W., R. S. Bowman; Bloom 1st D., E. S. McKillip, J. C. Brown; Bloom 2nd D., H. G. Supplee; Bloom 3rd D., John Cadman J. S. Woods; Bloom 4th D., E P. Williams; Catawissa, J. B. Yetter, E. B. Guie; Fishingcreek, P. J. Weaver, F. W. Jones; Greenwood, E., T. S. Christian; Locust, G. W. Stokes; Main, W. H. Utt; Millville Borough, S. P. Kisner, B. P. Eves: Mt Pleasant, J. L. Crawford, C. L. Sands: Scott E., M. C. McCollum, E. L. Edgar; Scott W., M. B. Hicks; Sugarloaf N., Nera Stephens.

J. C. Brown as chairman of a committee that had been appointed to propose rules for the party made his report which was adopted as follows.

Rule 1—County Conventions for the nomination of the county ticket and the transaction of business pertinent thereto, shall be held on the third Monday of August in each year, and the delegate election shall be held on the preceding Saturday from 5 to 7 p. m.

Rule 2—The convention for the election of State delegates and the transaction of such other business as may belong thereto, shall be held at such times as may be fixed by the chairman of the county convention but shall not be more than 30 days prior to the holding of the State Convention.

Rule 3—The representatives in the County Convention shall consist of two delegates from each election district in the county and one additional delegate for every fifty republican votes in excess of one hundred polled in the district at the preceding presidential election and one for each fractional part of fifty in excess of one-half. The chairman of the county committee is authorized to apportion the representation on this basis and announce the number of delegates in call for the county convention.

Rule 4—In voting instructions for any office, a plurality vote for any candidate in the district shall control all the delegates of the district.

Amendments—These rules may be altered or amended by a two third vote in any of the August conventions.

John Cadman, R. G. Crispin, F. H. Eaton and C. L. Sands were appointed Conferees to meet similar Conferees in the district and make nomination of a candidate for Congress.

George Mears of Rupert, and Frank Yocum of Roaringcreek were nominated as candidates for members of the Legislature.

A resolution was passed endorsing the Republican National and State ticket and endorsing the Course of Thomas B. Reed while Speaker of the House.

C. E. Geyer was re-elected Member of the Standing Committee.

Prohibition Convention.

The prohibition party of Columbia County held a Convention at the Court House last Saturday afternoon. W. A. Pitts chairman of the standing committee called the meeting to order, after which M. P. Lutz was elected president, and W. B. Cummings and G. A. potter secretary. Mr. Isaiah Bower of Berwick was nominated as candidate for Congress, Mr. Myron Low of Center township and J. W John of Main township were nominated as candidate for representative.

A vote being taking for county chairman, resulted as follows; Isaiah Bower 14; M. P. Lutz, 13; I. M. Dickson, 1.

R. E. Kline of Berwick was unanimously elected secretary of the Standing Committee.

It was agreed to employ Mr. Van Bennett to address the meetings to be held September 2, 3, 4, 5, and 6th.

Under the Baker ballot law it will be necessary for the prohibitionists to secure 2200 signers to petitions before the names of their Candidates can be placed on the uniform ticket; therefore the County was devided into districts for the purpose of circulating the petitions.

Members of the Standing Committee were appointed as follows: Beaver, Frank Mackey; Benton, R. T. Smith, Dr. Edwards; Berwick E., S. W. Dickson, Wm. Manney; Berwick W., Wesley Shannon, Rev. Brewster; Bloom 1st Dist., N. S. Walker, J. K. Eyer Bloom 2nd Dist., G. W. Correl, E. M. Kester; Briarcreek, J. B. Marz, Rev. Dick; Catawissa, George Manhardt, H. F. Clark; Centralia 1st Ward, Rev. S. M. Fost; Centralia 2nd Ward, Reuben Fahringer; Center, Arthur Spear, H. C. Barton; Fishingcreek, E. B. Beishline, Frank Jones; Greenwood W., R. L. Rich. J. E. Eves; Hemlock, Aaron Smith, P. S. Brugler; Jackson, W. E. Lutz; Locust, Rev. Bower, Thos. Seaborn, Madison, John Shultz, Thos. Wilson; Main, J. W. John, J. Nuss; Millville Borough, Edwin John, Shadrach Eves; Montour, W. C. Richart; Mt. Pleasant, Jacob Kester, L. P Kline; Orange, Chas. Low, W. A. Pitts; Scott E., N. Richard, Mr. Whitmyer; Scott W., A. B. White, J. B. Ammerman.

COUNCIL PROCEEDINGS.

Special meeting of the Town Council was held in the City Hall Monday night, all the members present excepting Mr. Kramer. The object of the meeting was to take action in regard to Catharine street bridge and dispose of the Stroup legacies,

After considerable discussion in relation to the bridge it was decided to leave it to the street committee and that they report at a special meeting to be held Wednesday night. They were authorized to have Huge Quick and the town Engineer present.

Mr. Holmes called the attention of the Council to the condition of the pavement in front of the residence of Glasco Cameron. The matter was referred to the committee on highways.

The street commissioner was also authorized to cobble the gutter in front of the property of C. W. Neal on second street.

The water Co. was ordered to fill up the alley between the residence of J. S. Blue and Levi Cox.

The light of the Oak Grove Park was placed in the hands of the President of the Council.

New locks were ordered procured for the station house, and whereever they were necessary around the building.

The matter at the crossing at Center and Third street was referred to the committee on highways.

The Stroup legacy of four thousand dollars for the benefit of the poor of the town was invested as follows: two thousand dollars in the bonds of the Silk Mill, one thousand dollars in the bonds of the Tube Works and one thousand dollars in the bonds of the Carpet Factory.

Upon motion of Mr. Holmes a committee of three were appointed to go to New York and purchase a fountain as per resolution at the last meeting, the President to be chairman of the committee. Mr. Peacock and Gilmore were appointed.

The application of the County Commissioners for the use of the Town Hall for election purposes was laid on the table.

Adjourned to meet Wednesday evening at 8 o'clock.

A special meeting of Council was held Wednesday evening when the commissioner of highways reported in reference to bridge across Canal street at Catharine street. Commissioner stated that the report of the abutment having sunken and wall cracked was unfounded as both the Superintendent of Canal Co., and the Town Engineer were present when foundation was dug and report the abutment in good shape. No other business was transacted.

Change of Date of Berwick Fair.

The management of the Berwick Fair at their meeting on Tuesday evening, changed the date of their fall exhibition from the first week in September, to the first week in October, being Wednesday, Thursday, Friday, and Saturday, October 5, 6, 7 and 8th. This change was thought advisable by the stockholders, in view of the State Fair holding their yearly exhibition at Scranton, the week of September 5th will draw heavily from our patronizing territory. The prospect for a successful Berwick Fair this Fall are very flattering, many encouraging repots coming to the management of intended exhibits in special lines, and the managers have determined that the coming event shall eclipse all its predecessors in extent and magnificence. The beautiful grove connected with the grounds is supplied with seats, pavilions, toilet rooms etc., and no more delightful spot than this can be found anywhere to spend a day of recreation and pleasure.

Extensive improvements have been made during the year, and the grounds are fully equipped with all the necessary exhibition buildings, places of public comfort, stables, and all other necessary adjuncts and conveniences for a first class exhibition.

The managers extend a cordial invitation to all to bring the best products of the farm, the garden, the stables, the house, the shop, the useful, the beautiful and the antique, and above all to visit the Fair, and are confident that none who will avail themselves of the opportunity to do so, will go away disappointed.

Heavy Rainfall.

A severe storm passed over this place last Thursday afternoon that at one time threatened to rival the flood of a year ago. The run which passes obliquely through the town and in many places covered with an arch, was not large enough to carry off the water, accordingly there was an overflow near the corner of Third street and Chamberlain's alley, and all the cellars in that vicinity filled with mud and water. At the lower end of the town J. W. Mears & Co. were forced to stop their Washing Machine Factory and Planing mill.

The citizens living along this run have made frequent demands to have the arches enlarged, but their demands are unavailing. The matter should be investigated at once, and if the town should make the changes, let it be done before another storm comes; or if the individuals who erected the arches are in the fault then let the evil be corrected by an ordinance; but innocent parties ought not to suffer from the faults of others. A dozen or more families suffer with every heavy rainfall, not only are they losers in money value, but their health is sacrificed to an extent not to be computed by dollars and cents.

EAST BENTON.

Miss Sarah J. Campbell of Orangeville is sojourning among friends in this locality at present.

The recent storms have tempered the atmosphere most delightfully.

The "McKinley Bill," like the mosquito bill, is adapted to successful and deliberate sucking.

When the clouds are charged with electricity, you can never tell where lightning strikes until it has thundered. Neither can it be told who will be nominated or chosen until after primary or general election.

The oats are not all gathered in yet.

Corn is spotted and the prospect of a crop is very poor.

Should the campaign be as quiet from this until election as since the nominations, the people will forget to vote.

Samuel Gibbons of this place has nearly recovered from rheumatism.

To Hon. E. M. Tewksbury we tender thanks for a copy of the Agricultural Report. Yes, and vote for him too.

Once more the farmers hope to secure equalization of taxation through the incoming Legislature.

WALLER.

Joshua Hess met with a very serious accident last Friday while helping Benjamin Savage raise his barn. By some misstep he lost his footing and fell quite a distance to the ground. He was unconscious for some time but at the present writing he is getting better and as no bones were broken, he will most probably soon recover.

The festival at this place was well attended on Saturday evening and something like fifty dollars was netted for the benefit of the Union Sunday school.

Some unaccountable delays have been keeping us from our regular daily mails. It is to be hoped that necessary changes will be speedily made so that we can have our mail to come straight through without laying so long by the way.

Mr. Eckman, who is driving the Millville creamery wagon met with some bad luck last week, while driving along the road near here a bolt was broken which letting the tongue fall frightened his horse so they ran away. He was pulled from the wagon in his efforts to stop them, without serious injury and the horses being caught after running about a mile he resumed his journey.

PERSONAL.

Rev. A. Houtz is at Centre Mills this week.

Mrs. J. G. Wells returned from her visit at Montgomery, Monday.

Mrs. Wm. Warn of Hughesville is visiting friends in Bloomsburg.

I. S. Kuhn who was confined to his bed for a few days by sickness was up town attending to business Tuesday.

A. W. Snyder of Mifflinville made a flying trip to the County seat, Wednesday.

Dr. Honora Robbins is spending a few days with friends at Asbury Park.

Miss Mular has returned home after several months visit with her sister in Brooklyn.

Mrs. C. B. Chrisman and sister Miss Mertie Beidleman visited their uncle M. F. Eyerly, at Williamspost, this week.

Mrs. J. D. Jones is spending a week with friends at Benton and vicinity. She was lately confined to her bed for two weeks.

Miss Lizzie Schuyler, who lately has been residing at Camden, N. J., is home on a visit to her parents, Mr. and Mrs. Dr. Schuyler.

W. R. Demott of Eyersgrove, was in town on business on Tuesday. He brought with him his son Wm. J. Baldy Demott, a bright lad of seven years.

Miss Eleanor Frick, daughter of Post Master Frick of Danville is the gust of her aunt Mrs. Clark, on Market Street.

Mrs. R. W. Oswald and children went to Asbury Park on Thursday to spend a few weeks. They were joined by Mrs. Woodin and Mrs. Hanley of Berwick.

Chas. Speigelmyer of Williamsport, manufacturer of cigars was in town Tuesday and Wednesday. He reports that his father-in-law, M. F. Eyerly, is doing well and enjoying good health.

F. M. Leader, General Manager of the B. & S. railroad left for a visit in the Tuscorora Valley, Saturday last where his wife has been visiting friends for some time.

Mrs. Ella Armstrong of Williamsport and Mrs Emma Earath of Wilkesbarre, who came to attend the funeral of their brother's child last Friday remained over Sunday with their mother, Mrs. Hassart.

Register and Recorder Campbell on Monday began work on the new index books. Robert Buckingham Esq., has been employed to assist in the work.

On his return from Shickshinny last Saturday, where he had been painting, Wm. F. Bodine found that some one had poisoned his coon dog. Just lately he had been offered $50 for the dog. He has his suspicion of certain ones, and will pay $25 to any one furnishing him with information that will lead to their arrest.

The annual Harvest Home Service will be held as follows: on Sunday Aug. 28, Hidlay at 10:30 A. M. and Briarcreek at 2:30 P. M. on Sunday Sept. 4. Zions at 11:30 A. M. St. James at 2:15 P. M. and Orangeville at 7:30 P. M.

Thou shalt keep the feast of the harvest. Let none neglect to bring a suitable harvest offering.

An accident occurred Friday morning about 1 o'clock, near Catawissa, resulting in the death of Jared M. Wolverton a nephew of Congressman Wolverton. A freight train had stopped at the tank for water and in starting broke in two sections. It is supposed the unfortunate was thus thrown from the train. When found, his neck, arm and leg were broken. He was not missed until the train reached Nescopec when they telegraphed back for him, and upon search he was found dead. He was about 30 years of age. His father has been baggage master on a passenger train on the Sunbury, Hazleron & Wilkesbarre road for some time.

Isn't it about time we have something definite in reference to lighting our streets. There seems to be no contract, or at least none adhered to, for we see no orders are drawn and the lights are not placed as agreed upon. If we are to have electric light let us have it at every square, or abandoned it altogether and use the gas light. There is no excuse for favoring a few. The council ought to act in the matter and have every street well lighted.

FOR GOVERNOR OF MINNESOTA.

Hon. D. W. Lawler, Whom the Democrats Have Nominated.

The Minnesota Democrats have nominated Hon. D. W. Lawler as their candidate for governor, and, to use the vernacular, the Republicans will have to "hustle" if they do not want to be badly "left."

Mr. Lawler's career gives promise of great things in the future. He is the son of General John Lawler, one of Wisconsin's best known campaigners of a couple of decades ago. The Democratic guber-

D. W. LAWLER.

natorial candidate was born in Prairie du Chien, Wis., but thirty-two years ago. He was graduated from the Georgetown (D. C.) college in 1881 with high honor as an A. B. He has since received the degree of A. M. from his alma mater.

Mr. Lawler entered the law department of Yale university, won several degrees and most of the important prizes, and after graduating located, in 1886, in St. Paul, where he began the practice of law. He has held no political office, with the exception of assistant United States district attorney for his district and corporation counsel of St. Paul. It is not improbable, however, that he will be the next governor of Minnesota.

An Astounding List.

It takes ten columns of space in the New York World to recapitulate all the strikes which have occurred in protected industries in this country since the McKinley law went into effect. The magnitude of the list is astounding, even to those who have long been convinced that "protection" protects capital in its aggressions on labor. Sixteen days after the act went into effect 1,300 iron miners at Dayton, Tenn., struck against a reduction of wages. That was the first, and it has been followed by no fewer than 473 strikes against reduction of wages under the operation of the McKinley tariff iniquity. As The World expresses it, there "has been no instant of time since the McKinley tariff act went into effect that there has not been in progress somewhere within the United States a strike against a proposed reduction of wages in some protected industry."—St. Paul Globe.

A Constantly Narrowing Margin.

The impressiveness of Grover Cleveland's speech was principally in the fact that he spoke truths that all have experienced, when he said that the people are "burdened as consumers by a tariff system that relentlessly and unjustly demands from them in the purchase of the necessaries and comforts of life an amount scarcely met by wages of hard and daily toil." From every city and hamlet in the land the facts prove this truth, and no sweeping general statement can convince the consumers of the country, who see the margin between wages and cost of living grow thinner and thinner, that they are being benefited by Republican protection.—Utica (N. Y.) Observer.

An Edifying Object Lesson.

In the proof of the enormous profit made by the Carnegie company in the production of steel ingots under the McKinley tariff may be seen the ground on which Mr. Swank congratulated the members of the Iron and Steel association on the passage of "the most protective of all the tariff schedules." In it, too, will be seen the basis of Mr. Carnegie's ability to exemplify the great American system of protection by purchasing castles in Scotland, England and other countries, whose citizens he desires to cheer with a sight of a triumphant Democrat. Will Republican organs continue to defend the iron and steel schedule?—Chicago Times.

Light Head, Heavy Tail.

While that portion of the banner occupied by the name of Harrison sometimes exhibits itself to the gaze of the spectator, the tail of the streamer which supports the name of Reid hangs like a dead weight even in the briskest kind of a gale. At times it seems as if Harrison's name would rise to the emergency, as it were, but as often the name of Reid pulls back like a balky horse and drags down the proprietor of grandpa's hat to a perpendicular. The banner is very suggestive, on the whole, of the Republican feeling toward the presidential ticket.—Lansing (Mich.) Journal.

"They Know Their Enemy."

It is all very well to shout that the force bill is dead. It is all very well to cry aloud that the Republican party is now a party of love, having forgotten its old hatreds and wiped off the pages of its history the many former attempts to make the federal bayonet control the southern ballot. Southern white men are not to be deceived, however. They know their enemy, whether behind a domino or in the broad glare of electricity.—Nashville American.

The Silent Vote for Cleveland.

The quiet satisfaction with the course of events is visible everywhere. Men are not saying much. But wherever a Cleveland and Stevenson club is formed the membership is apt to be heavy. The silent vote is preparing to fall into line for Cleveland and reform: at least the indications and symptoms point that way.—Pomeroy (N. Y.) Sentinel.

PORTRAITS OF COLUMBUS.

The public school pupils, who are going to have the lead all over America in the celebration of the 400th anniversary of the discovery of America by Columbus, are already asking how Columbus looked.

Many leading American publications have recently contained timely articles on the great discoverer, and the variety of portraits which has accompanied these articles has been surprising.

By the highest authorities it is conceded that there is no likeness of Columbus whose claim to consideration is indisputable.

From Oviedo and his own son Ferdinand—two persons who knew him—we have descriptions of his appearance, upon which must be based our judgment of the alleged portraits.

From them we learn that his face was long, neither full nor thin; his cheek bones rather high; his nose aquiline; his eyes light gray; his complexion fair and high colored. Up to the age of thirty his hair was of light color, but became rapidly gray after that age. It must be admitted in the face of these details that not one of the portraits gives very positive evidence of presenting the great discoverer as he lived.

The earliest claimant for consideration is a wood engraving by Paolo Giovio, published in 1575, which we give.

Next in point of antiquity is the engraving called the De Bry portrait. It shows a head covered by a three cornered cap, the face being short and broad and having the characteristics of the Dutch in a marked degree. It does not correspond with the best authenticated descriptions. De Bry claimed that the original canvas from which it was taken was painted from life by order of Ferdinand, the king.

Jomard published in 1845 a portrait in support of a Titianesque canvas, which he had obtained at Vicenza. This picture bore the inscription "Christophorus Columbus." He claimed that the features were in accord with the description of writers contemporaneous with Columbus. The pointed beard and Flemish ruff he accounted for by assuming that they were the additions of a later hand. These and other accessories, however, prevented the acceptance of Jomard's views.

There are many other so called likenesses of Columbus. They are widely scattered and it is not easy to link them with the three shown above, which probably have the best claims to consideration. But these three have little in common. They would never be taken for portraits of the same person.

The most authoritative descriptions of the stature, complexion and personality of Columbus coincide, and yet the most generally accepted portraits are not in harmony. Many artists disregard the statement that his nose was aquiline and make it of a decidedly retrousse type; others portray him as a brunette with a short, fat and beardless face. The next time we see him he is a blond with a long, thin face, well covered with whiskers. We always know him, as the artist thoughtfully introduces his name; otherwise a lively guessing match might result. The style of the pictures would naturally suggest the celebrities of a few centuries ago. They might be taken for Plato, Othello the Moor, Alaric, Julius Cæsar, Richard III and a score of others whose faces figure in history. Even a composite of the many portraits could not blend or unite in one the discordant conceptions which we see every day. We must know Columbus by his deeds, and not by his pictures.

There are 216,230 school houses in the United States and only 3.5 per cent. of them are in cities. This is a striking illustration of the economy possible in a dense population. Every one of these schools should be represented in the national Columbian public school celebration of Columbus Day, Oct. 21.

QUEER WAYS OF CATCHING CURS.

The Slip Nooses of New Orleans and the Nets and Lariats at 'Frisco.

In New Orleans the dog catchers who feed the pound with vagrant curs proceed about their work with a slip noose, which they hold in front of the dog's head or under his feet. In San Francisco the street curs are captured with big hand nets that look like exaggerations of the tools with which entomologists chase butterflies. But the net is a new thing for San Francisco, and before its use was introduced that city boasted the most scientific and interesting dog catchers in the Union. They did the work with lariats, used as cowboys use the flying loop, such as was introduced in the Southwest by the Mexicans.

It was a source of never-failing interest to the San Franciscans and to all who visited their city to see these wonderfully expert men catch a dog. The dog would be ahead of the man or across the street. The man would have his coil of rope hidden behind him, and would advance to within reach of the animal, when, with unerring accuracy, the rope shot out and the dog was captured. The movement was lightning-like, and the accuracy of aim was such that a dog was known to be doomed whenever a dog catcher set eyes on him. The instant a man threw his lariat he began to pull it in again with a dog on the end of it. He always pulled the dog up between his legs, gripped the animal's neck between his knees, took off the noose, and, catching the cur by the neck, tossed him in the pound wagon. The dogs became wonderfully knowing and seemed to scent a dog catcher around a corner. It was argued that the method of capture was cruel, and as a result the lariats are out of use and the big butterfly nets have taken their places.

Clever Horses and Cattle.

That cattle and horses can communicate intelligence to each other, and are endowed with a certain amount of reasoning faculty, the following facts, says a ranchman, are pretty conclusive proof. I once purchased a station on which a large number of cattle and horses had gone wild. To get cattle in I fenced the permanent water—a distance of twenty miles—leaving traps at intervals. At first this answered all right, but soon the cattle became exceedingly cautious about entering the traps, waiting outside for two or three nights before going in, and if they could smell a man or his tracks, not going in at all. At last they adopted a plan which beat me. A mob would come to the trap gate, and one would go in and drink and come out, and then another would do the same, and so on, till all had watered. They had evidently arrived at the conclusion that I would not catch one and frighten all the others away.

To get in wild horses, six hundred of which were running on a large plain—about twenty thousand acres—I erected a large stock yard, with a gradually widening lane, in a hollow where it could not easily be seen, and by stationing horsemen at intervals on the plain galloped the wild horses in. My first hunt, which lasted some days, was successful, the wild horses heading toward the mouth of the lane without much difficulty, but of course some escaped by charging back at the stock yard gate, and in other ways. My second hunt, about a month later, was a failure; every mob of horses on the plain seemed to know where the yard was, and would not head that way. This seemed to show that the horses that escaped from the first hunt told all the others where the stock yard was.

Antiquity of the Plane.

A very interesting discovery has been made at the Roman city of Silchester. The excavators came across a dry well which, on being explored, proved quite a little museum of antiquity. Some fifty-five feet down the diggers found an urn-shaped pottery vase, about a foot long, quite intact, and curiously enough, protected by lumps of chalk built around it. The vase, which probably originally contained some precious substance, was quite empty. Above it was deposited a number of iron implements, most of which were in a wonderful state of preservation.

The principal specimen is a carpenter's plane of quite modern type, although unquestionably more than fifteen hundred years old, three or four axes retaining their fine cutting edges and still quite serviceable, a number of chisels and gouges of all shapes and sizes, hammers, adzes, saws, files, etc. Among the smith's tools may be specified a brazier for burning charcoal, quite complete; two or three anvils of different sizes and shapes, a fine pair of tongs adapted for lifting crucibles, a curious tripod candelabrum lamp or candlestick, and several other curious objects, the precise uses of which have not yet been determined. In addition there are several large bars of iron, a couple of plowshares and a broken sword. This is undoubtedly the most important find at Silchester since the discovery of the bronze Roman eagle now at Strathfieldsaye, some years ago.

The Nails From Jesus' Hands.

The "Iron Crown," which worked up the minds of the people of the middle ages to such an extent as finally to become an object of worship, is, in fact, a gold crown, the secret magic of the name resting on the tradition that the inside ring of iron was made from the nails which were driven through the hands of Jesus at the time of the crucifixion.

But little is known concerning the history of the iron crown until after the coronation of Agilulf, King of the Lombards. It is generally believed that it was made for that monarch in the year 591. It was used by Charlemagne and by all the after emperors of France, who were kings of the Lombards. Napoleon put it on his head when he was in Milan in 1856, saying: "God hath given it to me."

This celebrated relic is now in Naples among the state jewels. It was captured and taken by the Austrians to Vienna in 1859, but was returned to Italy in 1866. Believers in the sacred hoop of iron inside the crown point to the fact that there is not a speck of rust upon it, although nearly 2,000 years old.

The Royal Blue Line.

WHAT AN EMINENT RAILROADER THINKS OF IT.

Those who have used the Royal Blue Line between Philadelphia and New York, well know that line is deservedly accredited as being the finest piece of railroad in the country; that its coaches are the most magnificent, and that its trains run more smoothly and are the fastest in the world. To those, however, who have never used the Royal Blue Line, the following abstract from a letter written by an eminent railroad authority to a gentleman connected with the Reading Railroad System, will doubtless prove interesting. After the usual formal greetings, the letter reads: "I have just taken my first ride on the Reading, having come over from New York this morning on your 11.30 A. M. Royal Blue Line train, and I cannot refrain from congratulating you on being connected with so superb a railroad. We made mile after mile in just 50 seconds, and the train ran as smoothly as though not exceeding ten miles per hour. The appointments were first-class, and I never had a better dinner or one better served on any dinner car."

Commendation from the source whence this came, must have been particularly gratifying to the Reading It has always been the aim of the present Reading management to provide the very best for its patrons, and the service on the Royal Blue Line, as well as on other portions of the System, is conclusive evidence of success in that direction. That the discriminating public appreciate these efforts, and recognize the fact that the Royal Blue Line trains are as advertised, the finest fastest safest in the world, is evidenced by the constantly increasing business on that Line.

Have You Read

How Mr. W. D. Wentz of Geneva, N. Y., was cured of the severest form of dyspepsia? He says everything he ate seemed like pouring melted lead into his stomach. Hood's Sarsaparilla effected a perfect cure. Full particulars will be sent if you write C. I. Hood & Co., Lowell, Mass.

The highest praise has been won by Hood's Pills for their easy, yet efficient action.

There are several instances on record of the complete destruction of whole regiments in one battle. On September 8, 1812, Napoleon's Fifty-third regiment perished to a man in storming over the Roman position. On January 6, 1842, only 65 out of 14,500 British soldiers emerged alive at a battle fought near Sagdulluck. In November, 1883, the whole army of Hicks Pasha, 11,000 strong, was cut to pieces near the fifth cataract of the River Nile.

I have been a great sufferer from catarrh for over ten years; had it very bad, could hardly breath. Some nights I could not sleep and had to walk the floor. I purchased Ely's Cream Balm and am using it freely, it is working a cure surely. I have advised several friends to use it, and with happy result in every case. It is the medicine above all other for catarrh, and it is worth its weight in gold. I thank God I have found a remedy I can use with safety and that does all that is claimed for it. It is curing my deafness.—B. W. Sperry, Hartford, Conn. 8-19-2t

The block which probably has the largest population of any in the world is in New York city, bounded by Avenues B and C, Second and Third Street. It has a population of 3500, or at the surprising rate of 1,000,000 to the square mile.

A SENSIBLE MOVE.

A New York Republican Ex-Assemblyman Becomes a Democrat.

D. Morgan Hildreth, who was elected to the assembly last year by the Republicans of the Twenty-first district, has written a letter to John Proctor Clarke, president of the Republican organization of that district, in which he says:

"Permit me to tender to the Republican organization through you my resignation as a member thereof. Up to the present time I have actively co-operated with Republicans, and in so doing I was actuated by a belief that the platform of the two great parties represented the sincere principles of government which were placed in issue in each succeeding election.

"I realize that I have received at the hands of the Republican organization of the Twenty-first election district the highest honor it had to confer in my nomination and election as a member of assembly from that district, one of the few Republican organizations in the city of New York capable of so honoring one of its constituents.

"I have certainly naught to complain of in the treatment I have received at the hands of the leaders of the district. For all favors bestowed upon me I am sincerely grateful. I have come to believe, however, the fact to be that the professions of the Republican party are insincere, and that the platforms adopted in the past have been adopted solely with a view of inducing such enthusiastic theorists as myself to swear allegiance to that party.

"Therefore I now retire from what seems to me to be a field of hypocrisy to which I was allured by blandishments, misstatements and deception. The only issue that I recognized in the years that I have actively participated in politics as existing between the two dominant political parties was that of protection. I believed in it on principle. I believe in it today, provided that its attendant advantages can be made universal and not special."

Mr. Hildreth goes on to say that the protective system as applied to manufacturers and laborers gives the former all advantages through the increased prices they are able to charge for articles, and that the wages of workmen are not correspondingly increased. He concludes:

"My allegiance to the Republican party in the past has been induced by exaction of conscience, and I now retire from that party because of the fact that I have learned from experience to know and believe in its absolute insincerity in this one cardinal issue as demonstrated in practice."—New York Herald.

A False Definition.

The statement that a tariff for revenue "confines the dutiable list to non-competitive products" is a false definition. The Democratic platform advances no such theory. The Democratic candidate in his celebrated message to congress clearly stated that he favored such an adjustment of the tariff as would conserve the interests of American manufacturing and American labor. At Madison Square garden he said: "Ours is not a destructive party. We are not at enmity with the rights of any of our citizens. All are our countrymen. We are not recklessly heedless of any American interests, nor will we abandon our regard for them."—Exchange.

Their Tune Has Changed.

Republican leaders ought to feel a little cheap themselves to be telling their followers that things have never been so cheap as now, when not many months ago their present chief, whom they so stoutly profess to worship, expressed great contempt for cheap things, saying that when you see a cheap coat "you generally expect to find a cheap man under it." Now the tune appears to run the other way, and to insist that the McKinley bill has rather depressed prices—made them cheaper instead of making them dearer, as it was planned to do, and as it has undoubtedly done.—Portland (Me.) Eastern Argus.

How Much Do You Get?

Mr. Carnegie draws $4,500,000 a year as his part of the profits of the iron business—that is, he gains every second ninety-five cents; every minute, $5.70; every hour, $343.40; every day, $4,120.85; every week, $28,846.50; every month, $125,000. How much do you get out of the tariff? Let every man answer this question for himself, remembering that every dollar Carnegie makes is pure bounty, according to the statement of the protectionists, because, if they tell the truth, manufactures would not pay at all in this country but for this blessed tariff.—Salem (N. C.) People's Press.

A Land of Plenty.

[Air—"The Ninety and Nine."]

Oh, there's plenty, they say, in all the land,
Too much to eat and to wear;
Yet children hunger on every hand
And shiver in winter air,
And the scepter of Want stalks grim and bare
In the midst of abundance everywhere.

There are ships that bulge with their precious freight,
And oceans of grain in store,
And the finest of raiment piled on shelves
That groan as they wait for more;
There are orchards and fields with their fruits galore,
But these are not for the starving poor.

There are acres broad unvexed by the plow,
And forest and mountain glen,
But the pauper lies with a fevered brow,
Low locked in the city's den,
For these are not for the women and men
Who stifle and die in a nameless pain.

The noise of a commerce that knows no bounds
Roars out through the busy land,
While Lazarus walks on his weary rounds
With idle and empty hands;
And the army of need in its misery stands
And wishes for work and houses and lands.

With cruel fetters the favored few
Have fastened the hand of trade;
The law "protects" with its dread taboo
The men who have millions made;
And the people in fear gaze on, afraid
To loosen the anxious hand of trade.

Let the people hope, for a man of might
Shall shatter the fetters strong.
See, Grover Cleveland shall lead the fight;
And this shall be all our song:
We'll sweep all classes from land to sea,
And men and women shall yet be free.

A man at Glasgow, Scotland, has invented a machine which, it is claimed, will revolutionize the dairy industry and do away with the farm hands who do the milking. The machine is constructed on the vacuum principle, and when adjusted to the cow the milk flows in a continuous stream. The machine does the work without assistance.

SUBJECTS FOR THOUGHT.

A talent may be perfected in solitude, a character only in the world.

Men's morals should be measured by the way they affect other men.

As soon as a man acquires fairly good sense it is said that he is an old fogy.

There is only one time when you know exactly what a man is—when he is dead.

As riches and honor forsake a man, we discover him to be a fool, but nobody could find it out in his prosperity.

To be free-minded and cheerfully disposed at hours of meat, sleep and exercise, is one of the best precepts of long lasting.

How blessed might poor mortals be in the straitest circumstances if only their wisdom and fidelity to Heaven and one another were adequately great.

The golden moments in the stream of life rush past us, and we see nothing but sand; the angels come to visit us, and we only know them when they are gone.

In a truly godlike man his love is pure and unmixed, and full of kindness, insomuch that he cannot but love in sincerity all men and things, and wish well and do good to them and rejoice in their welfare.

There never yet was any soul which had not sufficient grace—if it had sufficient fidelity to correspond with it—to escape eternal death. Keep ever in mind this great truth, for it is the foundation of the whole doctrine of grace.

All friendship is founded on some kind of sympathy, and, however different in tastes or in temper, in outward circumstances or inward character, two friends may be, there must be a really hearty agreement in some direction to bind them together. This agreement, too, must exist in certain things which fill up a good part of the thought and feeling of each, or the sympathy will be too slight to form a bond of union.

COCKRAN ON CLEVELAND.

The Tammany Orator Says New York State Is Solid.

The subjoined letter from the Hon. W. Bourke Cockran voices the sentiment of New York Democrats so admirably that it is given for publication by Mr. Howry as an encouragement to the cause everywhere. It was written in response to an inquiry as to how the nomination of Mr. Cleveland was received in New York, accompanied with the statement that while the writer, as an adherent of Cleveland's nomination, had heard Mr. Cockran's plea at Chicago without being convinced, nevertheless we were all interested in the stand the Tammany and other organizations in that state would take now that the nomination had been made, and that no one was so well qualified to tell the friends of Cleveland in the south as the Tammany orator. The letter of Bourke Cockran is characteristic of the Tammany leader, and shows that the New York Democrats are united in fact:

NEW YORK, July 21.

MY DEAR SIR—I have received your letter of the 10th inst., and I beg to assure you the delay in acknowledging it was caused my absence from home.

I have no hesitation in expressing my full conviction that the nomination of Mr. Cleveland has been received throughout the state a spirit of entire loyalty. The whole party without a single dissent, has indorsed the nomination, and we who opposed it in the convention are determined to labor with especial vigor to achieve success at the polls. I feel absolutely confident that the state of New York will show better results on election day than any other of the doubtful states.

It will afford me great pleasure to renew our acquaintance, and I am very truly yours,

W. BOURKE COCKRAN.

They Hate to Face It.

Many Republicans do not fancy having to face the force bill as one of the issues of the campaign. They know that it loses them votes, but a majority of that party is irrevocably pledged to the enactment of such a law as soon as it has the power, so the sensible majority must choose between voting the Democratic ticket and swallowing the force bill.—Yonkers (N. Y.) Gazette.

They Frighten Only Themselves.

When Democratic papers say that the high tariff has undoubtedly "protected" Carnegie and his partners but question its blessings for other people, Republican organs accuse them of defending lawlessness and violence, justifying murder and encouraging attacks upon persons and property. But those more or less esteemed contemporaries frighten only themselves.—Buffalo Courier.

Don't Heed the Fat Protectionist.

When you hear a fat protectionist howling that "free trade will ruin the country," remember that he is making money by the special privileges of protection, and that under free trade no man will have special privileges of that sort. Then you can easily decide which side makes the unselfish arguments.—La Crosse (Wis.) Chronicle.

A Specious Whine.

Raum attempts to vindicate his conduct of the pension bureau on the ground that the office expenses have been less under his than under previous administrations. Bank cashiers who have made away with the assets of the bank may find an admirable suggestion for defense in this ingenious statement.—St. Louis Post-Dispatch.

The Cause of High Taxation.

The principal complaint of farmers high taxation. High taxation is caus indirectly by the protective tariff. T Republican platform favors the h tariff, the Democratic platform nounces it and pledges the party regulate it, and the third party platfor is silent on the subject.—Danville (V Register.

Republican Desperation.

The desperation of the Republicans is indicated by their attempts to minimize the importance of the force bill issue. They have reason to fear its introduction into the canvass and will leave no stone unturned to relieve their party of a burden it is in no condition to sustain.—Pensacola (Fla.) News.

"'Twas the Merest Bluff."

Nothing more has been heard of Quay's offer to bet $10,000 on Harrison since a New Yorker offered to take the bet.—St. Louis Republic.

A Song for the Times.

[Air—"Uncle Sam's Farm."]

Of all the nominations in the east or in the west
These glorious nominations of our candidates are best.
With the name of Grover Cleveland, the leader of reform,
And General Adlai Stevenson we'll make this campaign warm.

CHORUS.

Then come along, come along; make no delay;
Come from every quarter, come from every way,
For our cause is strong enough, and we will shout for joy!
Hurrah for Grover Cleveland and the man from Illinois!

The nation's friend, our hero, stands ready for the fight,
With truth and justice as his swords to battle for the right.
Then rouse ye, old Democracy! and lend a helping hand
To crush this robber tariff, this curse upon our land.

A word to all the farmers that so long have felt the weight
Of this robbery taxation—take warning ere too late:
And henceforth from monopolies the people shall be free,
With Cleveland as their leader, to strike for liberty.

We have no need of any fears about our country's fate
With Grover Cleveland at the helm to steer our "Ship of State,"
And with our cause before us we can never know defeat.
Then onward with the battle cry, our enemies to meet.

From the northern states to Florida, and from the east to the west,
We will unfurl our banners for the men we love the best.
So with Grover Cleveland at the head, as leader of reform,
And General Adlai Stevenson we'll make this campaign warm.

COUNTY.

FOR CONGRESS,
S. P. WOLVERTON,

FOR REPRESENTATIVES,
E. M. TEWKSBURY,
ANDREW L. FRITZ,

The "corporation" had about as much to do with the recent delegate election as the man in the moon. The people fully understand that the hue and cry about "corporation lawyers" that emanates from a certain source on every occasion, is a mere peice of demagoguery and buncombe. Mr. Fritz is not responsible for such effusions, and would have prevented them if possible.

Senator Hill will take the stump for Cleveland in October. In meantime he has agreed to prepare some literature on the Force bill, its effect &c. Mr Hill has a peculiarly forcible manner of speech, and his articles and speeches will have a good effect in this educational campaign. The democrats are putting forth a united effort in New York state and that means victory for Grover Cleveland.

The untruthful and unjustifiable attack upon John M. Clark Esq., in last week's *Sentinel*, in charging him with "fraudulently" re-casting the convention vote as Reading Clerk, was fully answered in THE COLUMBIAN last week, in an article showing that his manner of stating the vote was exactly in accordance with what has always been the practice. The proceedings of the convention as printed year after year show this, and there is no getting away from it.

The story is circulated that Senator Sawyer, of Wisconsin, has already contributed $30,000 to the Harrison Campaign fund, and that he has remarked that Wisconsin will not be a democratic state "as long as he has a bank account." When such men as Senator Sawyer become frightened at the prospect of losing such a staunch republican state as Wisconsin, how can the republicans have any hope of carrying a democratic state like New York, which has elected its democratic state officers for the last nine years. If they are frightened at Wisconsin, how will they stand in Illinois, Mr. Stevenson's own soil, and an exceedingly popular man in his own state.

The names of Pennsylvania post offices have recently been undergoing a transformation. According to an official statement recently put forth by the department at Washington, the names of a score or so of offices have been changed the last few months, the idea being to simplify the designation and to make them uniform so far as possible throughout the country. "Borough" becomes invariably 'boro" according to Mr. Wanamaker's reform plan, "burgh" "burg." The same series of changes have been going on all over the country, the desire being to simplify the direction of letters. There has also been an effort to make the names of railroad stations and post-offices the same.

CAMPAIGN CONTRIBUTIONS.

For some time past the New York *World* has been earnestly calling attention to the capture of some of the Western States. Illinois, Wisconsin, Minnisota, Michigan, Iowa, Nebraska and Kansas are all debatable states, with a possibility of carrying them for Cleveland and Stevenson. In all of the above States in the Congressional election of 1890 the democrats elected over two-thirds of the members. The same issue, viz, Tariff Reform, that was used in the election of 1890 will be used this fall. In order to prepare the people of these Western states for the election this fall, it will be necessary to have speakers in every city and village and flood them with campaign literature. All this will require funds, and an enormous amount will be needed. The New York *World* therefore, on Monday August 15th began the great and good work by the organization of a Democratic Campaign Fund, and Mr. Joseph Pulitzer, editor of the *World* headed the list with $10,000; C. H. Taylor, of the *Boston Globe* followed with $1,000, and W. M. Singerly, *Philadelphia Record*, also 1,000. The *Record* has announced editorially that they will collect money from Pennsylvania and forward it.

Do you as a Democrat or tariff reformer approve the idea? Will you help? If so send a check, a registered letter, a money-order or cash to the address given below. Also if convenient fill up the following blank, in order that your subscription may be acknowledged in the columns of *The World*:

FOR THE WESTERN DEMOCRATIC CAMPAIGN FUND

I contribute.....

Name.....

Address.....

Date.....

Make checks and money orders payable to the Western Democratic Campaign Fund.

Address all communications to the Western Campaign Fund, box 2,354 New York City.

Subscriptions for any amount will be received from 10 cents to $10,000 or more. The smallest contribution will be as acceptable as the largest, for the greater the number of contributors, the more confidence will the democrats of the Western States have in their ability to overthrow monopoly tariff.

The money raised will be expended by advice of a committee of leading Western Democrats, comprising such men as Gov Horrace Boies, of Iowa; Gov. Geo. W. Peck, of Wisconsin; Gen. J. E. Boyd, of Nebraska; Gen. A. E. Stevenson, of Illinois, and Don M. Dickinson, of Michigan. It will be used solely for legitimate campaign expenses, the chief object being to make certain that every citizen of these doubtful States shall read and hear the truth—a great educational work, in brief, in a great educational campaign.

If the people will hereby respond to this call, a sufficient fund will soon be raised with which an educational campaign will be conducted in the western states and that will secure the election of Cleveland and Stevenson.

THE COLUMBIAN will gladly receive any contributions, and forward at once that each individual may have credit for the amount they may send. Who will be one of five hundred to send one dollar each. Send in your names and we will announce them in the COLUMBIAN as well as forward for announcement in the *World*.

The contributions that may thus be sent ought not to retard the work in this state; but every democrat should feel it a duty to see that his neighbors get out to vote and vote for Cleveland and Stevenson. With the secret ballot this fall we will have thousands of laboring people vote with us, and if each one will do a little work we can put Pennsylvania in the long list of democratic states.

Send in your contributions.

According to a recent order of the Postmaster General, the postmasters of the County seats throughout the United States are again required to inspect the postoffices in their respective counties between the 1st of August and the 15th of December of this year. The questions required to be answered number nearly one hundred, and cover "treatment of ordinary mail matter," "post-office boxes and box rents," "special delivery," "free delivery," "registry business," "money order business," "accounts," and "miscellaneous."

To wash Silk Stockings.—use cold water and white soap, and wash only one at a time, as on no account must they be allowed to lie in the water. Rinse carefully in cold water and squeeze, lay them flat on a towel, roll the towel up tightly, and leave to dry. Afterward to renew the gloss rub them briskly with a piece of dry flannel. They will look like new.

THE NEW BALLOT LAW.

HOW THE BALLOTS ARE TO BE PREPARED AND VOTED AT THE COMING ELECTION.

"A digest of the Pennsylvania ballot law of 1891 for the guidance of officials and voters, with explanatory notes," has been issued by the State printer at Harrisburg. In declaring the "right and duties of voters" it is explained:

Only ten voters are allowed in the voting room at once outside the enclosed space; and only four voters in excess of the number of compartment are allowed inside the inclosed space at once.

Voters must go first to the officers in charge of the ballots, and state name and address. The right to vote must be proved and the voter allowed to pass the guard rail before he can receive a ballot.

Voters must prepare their ballots forthwith; and in the compartments.

A cross (X) marked in the square at the right of a party name indicates a vote for all the candidates of that party.

A cross (X) marked in the square at the right of the name of a candidate indicates a vote for the candidate.

Crosses must be marked in the proper square only.

If candidates of different parties are voted for, the squares at the right of the party name must be left blank.

Name must not be crossed out.

Name must be inserted in the proper blank space only, and not in spaces where names are already printed.

Names can be inserted by writing, hand stamping, sticker or any means not intringing on the secrecy of the ballot,

Names inserted can be marked, but this is not necessary.

Names printed on the ballot must not be inserted.

When candidate has died or withdrawn and a substitute is nominated after the ballots are printed, the new name is to be printed on an official sticker. This should obviously be inserted over the name of the deceased or withdrawn candidate.

Voters unable to prepare their own ballots can be helped to do so, but only in case of actual disability, which must be explicitly declared to the judges.

To preserve order this should be done before the voter enters the enclosed space.

A voter desiring help must himself select another voter of the district to help him

A voter who receives such help without being actually unable to prepare his ballot will be liable to indictment for unlawfully showing his ballot.

A voter who attempts to influence the vote of one whom he is helping will be liable to indictment for unlawfully electioneering.

A voter who in helping another prepare the ballot otherwise than as desired, will be liable to indictment for forgery

Ballot must be folded, so as to show only the indorsements.

Where ballot has been spoiled accidently another can be obtained in its place on surrendering it.

No ballot, whether marked or not, can be taken from the room.

As the constitution provides that every ballot "shall be numbered" in the order in which it shall be received each voter must give up his ballot to the inspector to number and deposit it as has been the rule here-to-fore. By the new law the inspector must, in the presence of the voter, fasten the corner securely down over the number, and the voter shall see that this is done, and that the ballot is then placed in the box.

Challenges should be made before the voter receives his ballot, if possible, but may be made at any time before he cast it.

Commence Now.

A little over two weeks yet remains until the last day for being assessed has reached us. Time waits for no man, hence every Committeeman should get to work at once and see that every voter is assessed and a tax been paid within two years. There is always a large list of 60 day voters, all of whose names must be upon the assessor's book before September 8th. A vigilance Committee should be appointed in every district, whose immediate attention should be given to see that every democratic voter is ready to vote and that no name is missed. We want every democrat to have a chance in the election of Cleveland and Stevenson.

Free Delivery.

Mr. Parham, a post office official, recently visited Danville for the purpose of inspecting the facilities for establishing a free letter delivery. The necessary requirements for free delivery are that a certain sum be realized from the post office each quarter, that the streets be well paved and the houses all numbered. If Danville can have a free delivery what is the matter with Bloomsburg. Our post office is certainly up to all the the reqnirements and a better paved town can not be found.

Be Sure You are Assessed.

Every legal voter in Pennsylvania should charge himself with the discharge of two duties between now and September 8 next. He should see that his own name is on the Assessors' list and that any other names improperly there are erased. There is a copy of the assessment made in May hanging outside each polling place in the State. The Assessors will sit at the polling places September 7 and 8 to make the final corrections to the assessment list. Each voter should examine the list exposed in his own precinct at once to ascertain whether his own name is there, as well as to ascertain whether any voters have been improperly assessed from his own house or the houses of his near neighbor with whom he is acquainted.

There is ample time in which to do this between now and the last day in which assessments can be legally made, and to do it is the duty which every citizen owes to himself and to the country. The present law in regard to assessments was carefully framed to prevent fraudulent voting. Under its provisions an entire new assessment must be made every year, the assessors being required to make a house-to-house visitation, putting only the names or those they find to be actual residents upon the assessment roll. As the names must be placed upon the list in order of the street numbers and not in alphabetical order, every householder who will take a little trouble in the matter can learn himself whether the assessment has been carefully and honestly made or not, and this he is bound in all honesty to do.

This is a Presidential year and every citizen honestly entitled to vote should be on the assessment list and have his taxes paid in time to give him a legal right to vote. What is more he should pay his own taxes and own his own vote. As a preliminary to doing his full duty as a citizen he should make it a personal matter to know that he is properly assessed, which he is required to be sixty days before the election. He should then pay his taxes in person at least thirty days before the election. The new ballot law involves great change in the manner of voting, but the assessment and tax provisions of the law are the same as before and are imperative upon all who want to vote. See to it that your are properly assessed, and see to it at once.—*Times*.

[There is a great neglect of this important matter, and the whole burden usually falls upon the committeeman who must either advance the mony to pay the taxes, on the promise of returning it, or have the voter lose the vote. This fall we want every vote to count, and each one ought to interest himself to see that his neighbor is entitled to vote, and that no fraudulant ones are on the registry list. Remember only two weeks more remains to attend to being assessed. The next President must be a democrat and Columbia County ought to give 3000 marjoity.]

Children Cry for Pitcher's Castoria.

Democratic Announcement in the West.

There is great significance in the circumstance of a delegation of Lutheran clergymen from Wisconsin and Illinois calling on Chairman Harrity and assuring him of a widespread disaffection of the Lutheran element in those States toward the Republican party.

This element composed chiefly of Germans and Scandinavians, has for years been great support to that party in those States; but they have been repelled by the enactment of Republican school laws that arbitrarily deprive them of parental control in the education of their children. They gave indication of their dissatisfaction at the last two elections, and now since the obnoxious laws are still supported by the Republicans, the Lutherans of those States will go almost in a body over to the democrats.

In addition to this feeling, the sentiment in regard to high tariff has undergone a great change in those States, and both influences operating together justified the delegation in assuring Chairman Harrity of the bright democratic prospects in Illinois and Wisconsin. But these fair promises should only increase Democratic effort to bring about their fulfillment by the fruition of victory.

Stamped out—blood-poisons of every name and nature, by Dr. Pierce's Golden Medical Discovery.

It's a medicine that starts from the beginning. It rouses every organ into healthy action, purifies and enriches the blood, and through it cleanses and renews the whole system. All Blood, Skin, and Scalp Diseases, from a common blotch or eruption to the worst Scrofula, are cured by it. For Tetter, Salt-rheum, Eczema, Erysipelas, Boils, Carbuncles, Sore Eyes, Goitre or Thick Neck, and Enlarged Glands, Tumors, and Swellings, it's an unequaled remedy.

Don't think it's like the sarsaparillas. They claim to be good for the blood in March, April, and May. "Golden Medical Discovery" works equally well at all seasons. And it not only *claims* to do good—it *guarantees* it. If it doesn't benefit or cure, in every case, you have your money back.

You pay only for the *good* you get.

PURE OLD RYE AND WHEAT WHISKEY.

We formerly had bonded warehouse room sufficient to store 8,000 gallons of whiskey, which we considered a stock sufficient to meet our trade, but we found however, the demand for our whiskey such, that for us to be able to get a larger stock of old whiskey, we were compelled to increase our storage room and have just completed an Ironclad bonded warehouse with a capacity sufficient to store 20,000 gallons of whiskey.

We aim to sell no whiskey less than one year old and from that on up to the oldest we have in stock except in original packages, thereby giving our patrons the benefit of the age.

What we claim over a great many other distillers:

FIRST, Briarcreek being a rich fertile valley, we are able to get a superior quality of grain to manufacture our whiskey from.

SECOND: Having our flouring mill in connection with our distillery we clean all our grain for distillation over a rigid process of the smutter, thereby, making it as clean as the grain that is ground into flour.

THIRD: We hand mash, double distill our whiskey and then re-distill on a copper distill.

FOURTH: We leach our whiskey well thereby getting out the fusil oil and all impurities, which new whiskey contains.

FIFTH: We use no second-handed barrels, our whiskey is all put in new, clean, Indiana White Oak barrels which is considered the best barrel in the market.

SIXTH: It is a known fact that the hotter whiskey is kept the faster it will age, therefore, we heat our bonded ware-house with steam so the thermometer will register 70 degrees, when the temperature is at zero.

We have never distilled any corn, and do hereby guarantee all our whiskey positively pure rye or wheat and for purity and quality we defy competition, and to any person who will find any poisonous drug in our whiskey, put in by us, as it leaves our distillery or sales-room we will forfeit $600.00.

WANTED.—A good, strong boy from the country, to learn baking and candy making. Apply at Jacobs' Bakery.

The Ice plant at Bloomsburg is about completed. They expect to test it in about ten days

Two of the fresh air children of the thirty who recently arrived have been entertained by Louis Hildebrandt.

It is expected that the public sahools will open Tuesday, September 6th. Two weeks from next Tuesday.

The excursion to Lake Side Park, East Mahanoy Junction Saturday last was well attended, although not as large as last year.

J. G. Wells is giving his whole attention to his jewelry business this week in the absence of Mr. Walton, his journeyman jeweler, who is taking a week's visit in Philadelphia.

A moonlight dance was held a Oak Grove last Friday evening. The music was furnished by Chas. P. Elwell's orchestra. The refreshments were served by Mrs. Phillips.

Will you contribute to the Western Campaign fund? If so, send in your name and amount and we will promptly forward. All subscriptions ought to be forwarded within ten days.

Samuel F. Keller, sheriff of Dauphin county, was killed on Tuesday by falling from a train of cars at Conewago. He was for many years a conductor on the Pennsylvania railroad, and was well known.

Harvey Long who is now residing at Fresno county, California, sent in a box of sun dried fruit that he raised and cured himself. They are on exhibition at J. D. Armstrong's grocery and consist of raisins, figs, prunes, peaches, apricots, and nectarines.

The attendance at the Evangelical Camp-meeting at Waller which closed Wednesday evening of last week, was so great and so much interest shown that they have concluded to lease the grounds for a term of ten years and expect soon to erect permanent tents.

The remains of Mrs. David Winner were brought to Bloomsburg Saturday evening and interred in Rosemont Cemetery Sunday afternoon. Her age was 53 years, and she leaves a husband alone to survive her. She was a sister to Wm. E. and D. R. Coffman. For the past year she has been a resident of Parsons, Luzerne county.

The County Commissioners have received the new ballot boxes and will soon receive the voting booths. The cost for Columbia County will be $858.50. If the secret ballot shall meet the purposes for which the law is passed, the expense will be considered a very light thing.

James Fullmer of Muncy, agent for the Wire Buckle Suspender Co., of Williamsport was in town Tuesday. He is an ardent democrat, and bears the distinction of being the first Pennsylvanian to be removed by Harrison. He was Superintendent of Construction of Public buildings at Williamsport and was removed March 10th, six days after the inauguration.

During the heavy rain-fall last Thurs day afternoon a large quantity of dirt and stone was washed down upon the railroad track of the D L. & W. road along the narrows between Rupert and Catawissa. Peter Erwin and Henry Shane who were driving along the road discovered the obstructions and seeing an approaching passenger train flagged it, and thus prevented what might have been a terrible accident.

Mrs. Dehart, commonly known as "Saturday," was again arrested Tuesday evening. She entered the ice cream parlor of Casper Kressler and after ordering a plate of ice cream began to dance and use obscene language. Mr. Kressler's business was much interfered with and no one attempted to put her out. Policeman Chromis came along and took her up the street to the lock up. All along the street she kept up a jabbering. The next morning after consultation with Judge Ikeler she was arrested on a warrant preferred by officer Chromis. Mr. Chromas is placed under bail of twenty-five dollars for his appearance against her in September Court.

Mrs. Phillips was unfortunate in the removal of the roof of her building preparatory to making the improvements. The heavy rains of Wednesday and Thursday came down upon her open building, in such quantity that it seemed her goods would be completely ruined. A shed roof over her store room was the only protection. She had taken every precaution possible and hence lessened the damage that otherwise would have been done.

For Neuralgia.—A subscriber who suffers occasionally from that painful malady, neuralgia, tells us that the only remedy she finds effectual is the following one given to her by an old German nurse: Take a good sized piece of black silk, rub it briskly against the arm or until the silk feels warm,—this rubbing the old German lady said, developes the electricity latent in the silk,—then tie the silk round the head, taking special care to cover the aching part, and lie down. Almost immediately a delicious feeling of relief creeps over one and nearly always at the end of about half an hour the pain is gone.

Last Saturday evening Elias Hunsinger was placed in the station house on the charge of drunkenness Sunday morning the president of the Council was preparing for a hearing of the prisoner, policeman Chromas went to bring him, and was surprised not to find him there. The door was unlocked but the only thing broken was the screening covering the window. Sunday evening Hunsinger was found in Hemlock township at the residence of his father-in-law. He was brought to Bloomsburg and fined five dollars. When questioned, he said he opened the door with a key he had in his pocket.

According to the registration there are 1159 voters in Bloomsburg. To this must be added some 150 more of 60 day voters or those voting on age. This will make over 1300 voters in Bloomsburg. If the whole vote is polled we believe Cleveland and Stevenson will have a majority of over 200. The highest number of votes cast in Bloomsburg was in 1888 when 947 persons voted—and the democratic majority was 101. In 1890 at the Governor's election 919 votes were cast and the democratic majority was 127. Let all the democratic workers remember these facts and see that every vote is cast.

WORLD'S FAIR NOTES.

The World's Fair buildings will be dedicated on the 21st of October instead of the 12th, Congress having passed a bill to that effect. October 21 is the exact anniversary of Columbus' landing, allowance being made for the correction in the calendar made by Pope Gregory. The change of date of dedication was made in the interest of chronological accuracy, and also to oblige New York City which will have a Columbian celebration on October 12.

It is announced that the Postmaster-General of the United States has decided to issue a new series of postage stamps, with designs appropriate to the commemoration of the discovery of America.

New York will exhibit at the World's Fair sections of all the trees which are indigenous to the state. Of these there are 43 species and 85 varieties, a number which is not excelled, it is claimed, in any state in the Union.

"Marshall's gold nugget" will be exhibited at the World's Fair by California, and it is safe to say that thousands will consider it one of the most interesting of the innumerable objects which will be displayed at the great Exposition. This is the identical nugget which Marshall picked up in the American River, Feb. 16, 1848, when selecting a site for Sutter's mill, and which constituted the first discovery of gold in California. The nugget is about the size of a lima bean, and, on account of its associations and the almost incalculable wealth and development which have resulted from its finding, is regarded as an almost priceless treasure.

Indiana will make a fine display at the World's Fair of the results of manufacturing industries growing out of the discovery of natural gas. Since Indiana first began to use the gas in 1885, it is claimed, the growth of manufactures in the state has been greater than in any other state in the Union.

Prof. Putnam and his assistants, while engaged in collecting material for the ethnological exhibit at the World's Fair, have made a very important archæological discovery near Fort Ancient, Ohio. It is that of a serpent mound 1,900 feet long and about 10 feet thick. This is by far the largest known "serpent" constructed by the mound-builders of prehistoric times, and is regarded as one of the most notable of American antiquities. The mound builders' works there had been recognized before, but it was not known that they constituted a hugh "serpent." Many valuable relics are expected by Prof. Putnam from the excavations now being made.

The old whaling bark "Progress," with its extensive museum of marine curios and relics of whaling voyages, is now in the harbor at Chicago, and is being visited by hundreds of people.

Chief Willard A. Smith of the Transportation Department of the World's Fair has secured for exhibition one of the old French voyager's boats, which he found in the State Historical Museum of Wisconsin, at Madison. The boat is an old batteau of the pattern used by the French-Canadian fur traders in their voyages on the lakes and rivers of the Northwest before Illinois or Wisconsin had been organized as territories. It is a leviathan of canoes, weighing 1,100 pounds, is thirty feet long, and in its day carried eighteen men and over a ton of goods for the Indian trade. Secretary Thwaite of the Wisconsin Historical Museum, on one of his canoe trips two years ago, found this relic, water-logged, on the banks of the Upper St. Croix, and had it conveyed to Madison.

Dr. Henius, a scientist and publisher of Chicago, has just returned from a trip to Europe. He says that the interest and preparation for the World's Fair in the principal cities of Germany is extraordinary. Germany will be represented at the Columbian Exposition as it never has been at any previous international exposition. Dr. Henius is President of the German-American Press Club of Chicago, and in the course of his trip he met a number of scientific and press men. He visited Berlin, Munich, Frankfort, Leipsic, Hamburg, and several of the minor cities. Dr. Henius says that from all the large manufacturing centers in Germany complete exhibits will be sent to Chicago, and many manufacturers and scientific men said that they would attend the Exposition.

The Hoboken Ferry company of New York wants to show a fac-simile model of the twin screw steamer at the World's Fair, built in 1805, with original engines and boiler. As a contrast to this venerable craft it will show the model of a modern screw ferry boat, the Hamburg, built in 1892.

Hip Lung, the wealthiest Chinese merchant in Chicago, together with several influential Chinese of Canton, San Francisco and New York, have applied for space at the World's Fair for a big tea house.

The French Commission informs the Department of Horticulture of the World's Fair that M. Andre, pre-eminently the greatest landscape gardener of Europe, will take charge of the grounds arourd the Women's Building and that part of the horticultural grounds which will be assigned to the French exhibit. The French florists are not only willing but anxious to furnish all the plants for this exhibit.

The City of Mexico will have a special exhibit at the World's Fair, $3,000 having been appropriated for that purpose by the city council.

The Electric Launch and Navigation Company of New York has been awarded the contract for running electric boats on the interior waterways at Jackson park during the World's Fair. It will pay the Exposition 33⅓ per cent. of the gross receipts. These boats will convey visitors from one point to another or on a general three mile tour of the grounds, as desired. Such a tour affords some of the finest views of the buildings and grounds, and is sure to be popular.

A factory at Lynn, Mass, has asked for space at the World's Fair to show pneumatic dynamite guns and projectiles; one dynamite field gun to be shown on a wheeled carriage 15 by 6 feet over all; one coast defense pneumatic dynamite gun, stationary, mounted on carriage with turnable track, tube 8-inch bore, three feet long.

To Restore the Drowned.

For M. Laborde is claimed the invention of a new method of restoring to life persons who seem to have died from drowning. His plan is to agitate the tongue by seizing his hold of it at the root and giving it a series of jerks. This produces the action of breathing more perfectly than any other method, and the stimulation of it produces breathing itself. He likewise rubs the chest with towels soaked in hot water, almost scalding hot.

The plague of breaking lamp-chimneys is abroad in the land.

There are two sorts of chimneys; brittle and tough. Ninety-nine in a hundred are brittle. The worst are imported from Germany. The best are Macbeth's "Pearl-top" & "Pearl-glass."

Two sorts as to workmanship; fine and coarse. The fine are Macbeth's "Pearl-top" and "Pearl-glass." The coarse are rough and out of proportion; misfits and misshapen; they do not make a good draft; they smoke.

Two sorts as to glass; transparent and gray. "Pearl-top" and "Pearl-glass" are clear, fine and tough—not tough against accident—tough against heat.

Call for "Pearl-top" or "Pearl-glass" chimneys.

CHEAP SUGAR.

The Views of Hon. Owen Scott, a Congressman from Illinois.

The following is an extract from the speech of the Hon. Owen Scott, of Illinois, in the national house of representatives:

Every pound of raw sugar bought, whether produced here or abroad, is bought by the trust and all the refined sugar sold passes through their hands and pays tribute to this conscienceless corporation. In increasing its capital it also provided for $10,000,000 of 6 per cent. bonds with which to operate the business and to silence the competition of any refinery which might hereafter make it interesting. Not only has the Sugar trust succeeded in destroying all competition, but it has, at the same time, prepared the means for perpetually preventing competition.

The result of this has been to depress the price of all raw sugar and to largely increase the price of refined. Prior to this absorption of refineries and destruction of competition it was not believed by any one at all well informed that the Sugar trust or those engaged in refining sugar were not making large profits. On the contrary, there was every evidence that sugar refining was a most lucrative business. The present prices of raw sugar, 96 degs. centrifugal, and refined, granulated, have been so adjusted by the trust that the net profits are 1¼ cents per pound. The cost of refining does not exceed at the most five-eighths of a cent, and the best equipped refineries can produce it at one-half cent. This changed condition between raw and refined, made possible by the absorption by the trust of the outside refineries, has given them enormously increased profits.

There is a net increased profit of five-eighth of a cent per pound, or $3.03 per barrel. On a minimum yearly production of 12,600,000 barrels this amounts to the enormous sum of over $25,500,000, or a little more than the amount of the increased capital of the trust employed to destroy competition.

Experts place the actual value of Sugar trust properties at $35,000,000, so that the rate of profit on actual valuation is a little over 73 per cent. After paying 7 per cent. on $37,500,000 of preferred stock and 6 per cent. interest on the $10,000,000 of bonds the above rate of profit would yield almost 60 per cent. on the common stock.

Such enormous profits are only possible by giving exclusive and sole control of the market for this commodity, which is a necessity in every household in the land. At the time of the formation of the trust in 1887 the actual value of the establishments taken in was estimated to be about $15,000,000. Additions since and changes made in the plans, in the opinion of experts, make the property of the trust worth about $35,000,000. The remainder of the $50,000,000 capital prior to the recent increase represents undistributed earnings, good will and plenty of water.

To illustrate the wonderful profit that is made by these refiners mention may be made of the largest—that of Havemeyer & Elder's Sugar Refining company, Brooklyn. It is estimated by good authority that the properties and equipments cost not to exceed $4,000,000. Its capacity is 8,000 barrels per day, giving in one year of 300 days a production of 2,400,000 barrels, or 780,000,000 pounds. Even allowing a net profit of one-half cent per pound, the exact amount of tariff on refined sugar, it will be seen that the annual profit is the enormous sum of $3,900,000, being almost if not quite 100 per cent. on the cost of the works.

Republicans in a Sad Way.

The Republicans are saying a good deal about Mr. Cleveland's "misgivings" as to the advisability of nominating him. They are also industriously circulating the report that he is not quite so slender as Hamlet or Romeo. All we have to say on the subject is that if our Republican friends are depending on these great arguments to elect Messrs. Harrison and Reid, they must be in a sad way for campaign material, and have very slim hopes of electing their candidates. — Memphis Appeal-Avalanche.

Bayonets and Ballots.

What gloom would confront us should the Republican force bill ever become a law! There would be no more liberty in this land of the free and home of the brave. Bayonets at every ballot box would count the vote as the federal government dictated. All power would be centralized in the general government and a more than monarchy established. This could only be reached by a division of the white people of the south.—Anniston (Ala.) Hot Blast.

Workingmen Will Vote Against It.

Memory cannot be destroyed by protection monopolists. The right to use the ballot cannot be taken away. The men who are now in the position of the under dog will not forget, they will vote intelligently. Who can doubt that they will vote against a system which favors capitalistic combinations and upholds their efforts to crush the organizations formed by laboring men for the protection of themselves and their families?—Buffalo Enquirer.

How It Will Soon Be.

Within a few more years the Republicans will have succeeded in weakening the people until they are unable to offer any resistance to the tariff robbers. The average pauper voter will turn both pockets inside out and take off his hat in meek humility when he is permitted to vote.—Galveston News.

A "Cheap" Chairman.

There may be something in the cheap meanness of Chairman Carter's career as a book agent which will be offensive to President Harrison, but the chances are that the president will hold his nose with one hand and his chairman with the other.—Laramie (Wy.) Boomerang.

TOM REED ANSWERED

HIS RIDICULOUS CLAIMS PUNCTURED BY HOLMAN AND SAYERS.

Hard, Cold Facts Showing That Reed's Congress Compelled Appropriations by the Present One—Public Debt Reduction by Cleveland and Harrison.

When the first session of the Fifty-first congress ended The World predicted a deficiency in the treasury. The secretaries of the treasury under the present administration have concealed the deficiency by counting among their available assets uncurrent funds, the bank note redemption fund and the gold reserve and by holding up appropriations. This fact and its true meaning have been exposed and explained by The World from time to time, and now Representatives Sayers, Dockery and Holman, after an examination of the government's accounts for the past two years, verify The World's predictions by showing that there is a real deficiency of more than $100,000,000.

Last year, because of the extravagance of the billion dollar congress, the secretary was unable to meet the requirements of the sinking fund, and this year he will fail again to pay the amount required by law to be set aside toward the satisfaction of the public debt.

Messrs. Holman, Dockery and Sayers estimate that the deficiency will be $50,000,000 besides the sinking fund. If to this sum there be added the amount of the sinking fund due for the current fiscal year, $48,632,000, the $30,000,000 or more represented by uncurrent moneys and moneys owing to reserves and required for appropriations, the deficiency on June 30 next will really be much more than $130,000,000.

The result has been accomplished by extravagance. During Mr. Harrison's administration $65,000,000 less of the government's bonds have been retired than were paid during Mr. Cleveland's administration. Besides this the actual lack of present funds compelled the administration to extend $25,364,500 of the 4½ per cent. bonds, so that more than $90,000,000 must be added to the deficiency, together with $84,000,000 representing the surplus in the treasury at the end of Cleveland's term, in order to reach a conclusion indicative of the relative cost of Mr. Harrison's and Mr. Cleveland's administrations.

In fact, the appropriations for the four years of Mr. Harrison's administration have exceeded those for the four years of Mr. Cleveland's term by $441,944,204.

Ex-Speaker Reed excuses this profligacy by asserting that the Democrats are as much responsible as the Republicans. Mr. Sayers and Judge Holman puncture this claim. The apparent excess of appropriations for the first session of the Fifty-second congress over those for the first session of the Fifty-first is $18,245,181.92. But of the sums appropriated by this congress there was made absolutely necessary by the legislation of the Fifty-first congress the enormous amount of $79,527,602, and of these $60,052,843 may be charged properly to Republican legislation.

Among them are the ocean subsidy bounty, amounting to $390,290; cost of collecting sugar bounty, $230,890; the sugar bounty itself, $10,000,000, and pension increase, $48,000,000.

The Republican party cannot escape responsibility for either the extravagance of the billion dollar congress, the extravagance which it entailed upon succeeding congresses by its permanent legislation, or for the deficiency which it has created.—New York World.

Importance of Achieving Victory.

The importance of achieving victory is so urgent and the disastrous consequences of defeat are so manifest that no chances which may aid in winning the battle must be neglected. The depressing effect upon the country and the party which would inevitably follow a Democratic repulse in November was truthfully portrayed by Mr. Cleveland in his speech, and he emphasized the necessity for "systematic and intelligent effort on the part of all who are enlisted in our cause." Vigorous fighting and brilliant campaigning alone will not win the election. That army fights most successfully whose forces are most compactly organized and whose movements are directed by an intrepid, skillful and confident commander. The valiant soldiers of Democracy can safely trust the wisdom and the courage of their leader in this campaign.—Chicago Herald.

The Wornout Free Trade Howl.

The Republican tendency in tariff legislation has unmistakably been toward excessive protection. It is a tendency that the Democracy desires to check. It will be checked without proceeding toward the opposite extreme. The issue is moderation against excess. The Republican platform is embodied in the McKinley bill. Our opponents must successfully defend that measure or be beaten. The false and outworn free trade howl has nothing to do with the case. Tariff reform is not free trade.—Rochester (N. Y.) Herald.

An Auspicious Outlook.

The outlook for the triumph of the Democratic candidates and Democratic principles is indeed auspicious. In all sections of the country nothing but good reports are heard, and in all sections Democrats are confident that Cleveland will be the next president. The independent vote of the country is rallying around our standard bearer to a greater extent even than was anticipated. In every city, village and hamlet acquisitions to the Democratic cause are almost daily reported.—Syracuse (N. Y.) Courier.

Alone Responsible.

The Republican party is alone responsible for all the evils of misgovernment in the way of exorbitant taxation and oppressive and discriminating laws from which they as a class and the south as a section suffer.—Augusta (Ga.) Chronicle.

CAMPAIGN SONGS.

Best Efforts of Versifiers in the New York World's Prize Competition.

[Air—"Benny Havens, O!" or "The Wearing of the Green."]

Stand forth, ye friends of Liberty,
The bugle call is blown!
Ye mighty throng who hate the wrong
Stand forth to claim your own;
The people's right to rule in spite
Of barons high or low,
'Tis what we claim, in Freedom's name,
With Grover Cleveland, O!

CHORUS.

With Grover Cleveland, O!
With Grover Cleveland, O!
'Tis what we claim, in Freedom's name,
With Grover Cleveland, O!

No tariff tax that robs the poor
To pay the rich man's debts,
But let them learn each man must earn
And own what'er he gets.
Oh, ye who toil and till the soil,
Strike now a manly blow
For honest work and wages and
For Grover Cleveland, O!

They tax your toil and substance, and
The tariff barons dream
That bayonets they tax you for
May yet be made to gleam
'Round boxes where your votes should fall,
Untrammeled as the snow,
For free and fair elections and
For Grover Cleveland, O!

One thousand millions squandered and
A treasury left bare—
It calls for retribution swift,
And we must all be there.
With Cleveland and with Stevenson
With steady step we go
For equal laws, the people's cause
And Grover Cleveland, O!

Incorporate trusts will save them not:
Their gold is red with guilt
And ruined lives and widowed wives
And lordly castles built
In foreign lands by alien hands—
These are the fruits they show:
Then strike like men and strike again
For Grover Cleveland, O!

Fair play for all who think and plan
Or humbly turn the sod,
We care not which, for poor and rich
Are equal under God.
Protection true is each man's due;
The false we'll overthrow
And vote unawed by force or fraud
For Grover Cleveland, O!

For Cleveland and Reform.

[Air—"Marching Through Georgia."]

Rally to the rescue, boys, and make the battle warm;
Rally for Democracy, for freedom and reform;
Rally to the ballot box and take the polls by storm,
As we are marching for Cleveland.

Hurrah! hurrah! for principle and right!
Hurrah! hurrah! we'll make the gallant fight!
Turn the tariff barons down and send them out of sight,
While we are marching for Cleveland.

Down with plutocratic rule that would usurp the land
With its labor platitudes and inconsistent stand;
Hear the people join us in the popular demand,
While we are marching for Cleveland.

Hurrah! hurrah! the Pinkertons must go!
Hurrah! hurrah! we'll lay the Force bill low
And down the grasping office shark, the nation's greatest foe,
While we are marching for Cleveland.

Follow through the issues which our leaders have discussed—
Low taxation, less corruption, pensions fair and just;
Holding public office purely as a public trust—
While we are marching for Cleveland.

Hurrah! harrah! ten million voices strong!
Hurrah! hurrah! we sing the people's song
And cheer the answering echoes as they start the world along,
While we are marching for Cleveland.

Blow the bugle louder, boys, and let the torches flare;
Sound the joyful tidings through the nation everywhere;
We shall want no "blocks of five," we'll win the victory fair,
Marching and voting for Cleveland.

Hurrah! hurrah! long live Democracy!
Hurrah! hurrah! 'tis fixed by fate's decree!
Sound the conquering slogan from the mountain to the sea,
While we are marching for Cleveland.

High Tariff.

[Air—"Tit Willow."]

Republican friends, have you tried long enough
This tariff, high tariff, high tariff?
Don't it look to you now like a big game of bluff,
This tariff, high tariff, high tariff?
Can you see where it's helped you to sell or to buy?
Is it truth which they've told you, or is it a lie?
And will you continue to vote till you die
For tariff, high tariff, high tariff?

The workingmen now have just opened their eyes
To tariff, high tariff, high tariff.
Republican pledges they've learned to despise
On tariff, high tariff, high tariff.
McKinley's loud talk has turned out mighty thin;
It amounts to the same as American tin;
It's varnished outside, but it's rotten within,
Like tariff, high tariff, high tariff.

Monopolists cry for protection, you know,
And tariff, high tariff, high tariff.
We're taxed to protect them—you all know it's so—
With tariff, high tariff, high tariff.
They urge us to vote, and, with promises fine,
Inform us we'll have a more prosperous time;
They gobble the fat and then throw us the rind—
That's tariff, high tariff, high tariff.

The Force bill you know is another rank fraud,
With tariff, high tariff, high tariff;
How can any party such measures applaud,
With tariff, high tariff, high tariff.
It's a blot on the nation such bills to put through,
But Republican schemes of that sort are not new;
We'll change the whole plot if you'll only put true
Against tariff, high tariff, high tariff.

With tariff reform we will swamp the whole crew,
And tariff, high tariff, high tariff.
With Republican chaff honest men have got through,
And tariff, high tariff, high tariff.
For Cleveland and Stevenson now clear the way,
We see through the mist the bright dawning of day;
We see better times and we see better pay—
Less tariff, less tariff, less tariff.

The White House Chair.

Come, rally, loyal Democrats,
Obey your party's call!
Our army with its solid front
Will our enemies appall.
We'll have the rascals all turned out
And fill them with despair
When we seat our honest leader
In the White House chair.

CHORUS.

Then march! march! march!
To the White House march away!
The tariff is the issue,
And on that we'll win the day.
With our courageous leader
No other can compare;
He'll represent the people
In the White House chair.

From unjust taxes, Force bills and
Corruption we'll be freed;
No longer we'll pay tribute
To monopolistic greed.
We'll send Ben and Raum and Wanny
Up salt river for fresh air
When our president is seated
In the White House chair.

Whitelaw's rat in grandpa's hat
Can play with "blocks of five,"
And Benny's poor relations on
Us ne'er again will thrive.
Dudley, Quay and all their "pals"
Will sure be in despair
When Grover's firmly seated
In the White House chair.

The Sun of Democracy.

[Air—"The Star Spangled Banner."]

Up, freemen, arise! see, the day dawn is nigh;
Now the sun of Democracy 'wakes from his slumber;
And soon will his splendor illumine our sky,
And soon o'er our land blessings shed without number.
Then error shall hide,
Then truth shall abide,
While justice and right shall be found by her side;
When Cleveland and Stevenson victors shall be,
When peace and fair plenty shall smile on the free.

Oh, brothers, how long will you suffer and bear
The vampire that sucks the life blood of the nation?
What! will you be slaves, who have breathed freedom's air,
Slaves to plutocracy's foul combination?
Now the battle is on,
The cause must be won,
The masses shall rule, let the classes be gone!
Then, like freemen and true men, arise in your might,
For Cleveland and Stevenson, charge for the right!

Oh, hear you the murmurs that wake all the land,
The cry of distress and the groans of our toilers?
And hear you the boast of that desperate band,
High tariff's defenders, the people's despoilers?
They boast and declare,
They vow and they swear,
To fasten more firmly the chains that you wear,
Then up, men, for Cleveland, tried, trusted and true,
Strike home, men, for Cleveland and Stevenson too.

Hark! hark to that cry as it swells to the sky!
'Tis Cleveland and Stevenson, friends of the people;
From mountain to sea, a grand jubilee—
Ring out the glad tidings from church tower and steeple!
Each home is made light
And gladsome and bright,
And dead is the Force bill and buried from sight,
Thus the "Temple of Freedom" kept sacred shall be
In this land of the brave and the home of the free.

That "Tender Mercy."

Grover Cleveland—The tender mercy the workingman receives from those made selfish and sordid by unjust governmental favoritism.—Chicago Herald.

The Beginning of the End.

Mr. Frick is credited with saying that he recognizes the necessity of getting the Carnegie works in all departments upon a basis that will enable them to dispense with protection, and that this is the reason for the reduction of the wages and the contests with the labor organizations that have occurred during the last year or two. If Mr. Frick made this remark it is creditable to his perception, and his conduct toward his Homestead workingmen is eminently calculated to bring about the conditions for which he claims to be preparing. It is probable that the future historian in writing the history of the Nineteenth century will point to the Homestead carnage as the beginning of the end of protection in the United States.—St. Louis Republic.

"The Proof of the Pudding," Etc.

The People's party in Kansas need not be alarmed by the announcement that Governor McKinley is to take part in the campaign in that state. As long as the farmers of Kansas have to buy agricultural implements and nails and lumber and clothing, and their wives are compelled to purchase carpets and blankets and woolen fabrics and gloves and tinware, all of the talking which even as slick an orator as McKinley can do will not make protection popular. The quality of pudding in Kansas is always determined by the sense of taste.—Kansas City Star.

A Very Bad Well Enough.

The administration organ puts forth the old plea of the sleek and contented ins in favor of "letting well enough alone." Whether the irony of this plea be conscious or unconscious, it is great. Is the highest tariff in the world, taxing a thousand necessaries of the people at more than war rates and breeding millionaire monopolists and servile or striking workingmen, "well enough?"—New York World.

A Decidedly Vulgar Ring.

Chairman Carter is flippantly spoken of as "the little wonder," and though young is said to be a "hustler." Uncle Jerry Rusk is reported as saying that there are "no flies on him." All this would sound very well in ward politics, but used in connection with the management of a great national party it certainly has a very vulgar ring.—Boston Globe.

Give Thanks to McKinley.

When the duty of four cents a pound comes to be laid on imported tin next July the English owners of the Temescal mine will be able to get that much more for their little output from American consumers, and for that blessing all patriotic Americans will have to give thanks to McKinley and his associate patriots.—Chicago Herald.

The Great American Hog

Is welcome abroad once more, and abroad he may go. As long as Lard was a requisite in every kitchen, the Great American Hog was highly esteemed at home; but now that modern science has introduced

COTTOLENE

the new vegetable substitute for Lard, poor Piggy's occupation's gone.

The reason for this is threefold. COTTOLENE is cleaner, healthier and much more economical. A trial has convinced thousands as to this. It will convince any "convincable" person. Will *you* be convinced?

Any one can do the **work.** Easy to learn. We furnish everything. No risk. You can devote your spare moments, or all your time to the work. This entirely new lead brings wonderful success to every worker. Beginners are earning from **$25 to $50** per week and upwards, and more after a little experience. We can furnish you the employment—we teach you **FREE.** This is an age of marvelous things, and here is another great, useful, wealth-giving wonder. Great gains will reward every industrious worker. Wherever you are, and whatever you are doing, you want to know about this wonderful work at once. Delay means much money lost to you. No space to explain here, but if you will write to us, we will make all plain to you **FREE.** Address, **TRUE & CO., Box 400, Augusta, Maine.**

MONEY

Wisely invested will soon double itself, and there are often as many elements of safety surrounding a good paying investment as one that pays small dividends. The earning capacity of every investment is the foundation of dividends. The **Atkinson House Furnishing CO.,** of Maine, Organized in 1887, has paid its stockholders 9 semi-annual dividends of 5 per cent. each (10 per cent. a year) and is earning a handsome surplus besides. It is a buy and sell business and a safe investment for all classes. The authorized capital is $1,000,000, of which $570,000 has been paid in. To further increase the business, $80,000 of the Treasury Stock is offered until March 15th, at par, $10 per share. Price of stock will be advanced February 18th to take effect on above date. VIA THE CHICAGO, MILWAUKEE & ST. PAUL R'Y, ON TUESDAY, AUGUST 30TH AND SEPTEMBER 27TH, 1892.

Where the grasses are kissed by the wand'ring breeze,
And the fields are rich with the golden grain;
Where the schooner ploughs through the prairie seas,
To its destined port on the western plain;
Where homes may never be sought in vain,
And hope is the thriftiest plant that grows;
Where man may ever his rights maintain,
The land is as free as the wind that blows.

"House boating" has grown to be a very popular amusement along the Susquehanna. A party that decides on house boating first builds a flat boat of any size and dimensions desired, a cabin or tent is pitched in the middle of the big float and the party makes itself comfortable therein and thereon. Then they launch the craft and "dream and idly float" and smoke, and fish, and tell stories, and drink beer and play euchre till they get sick of it. Then they sell the boat and go home on the cars. Those who have been down the river this year say they are going twice next year. It seems to be an inexpensive outing, and can be made very quiet, civil and moral, or just the reverse, according to the company.—*Sullivan Review.*

Census Returns.

E. J. Brown, at Port Noble is the happy father of a son. It is not his first but he feels just as proud.

W. J. Keller, wore a broad smile Friday over the arrival of twin babes; but they do not count when it comes to voting. They are not the kind that votes.

A GOOD INVESTMENT.

The Bloomsburg Brass & Copper Company has just entered a mortgage for $20,000, and has bonds for sale in sums of $100 and $500, at six per cent. interest, payable in 5, 6, and 7 years. The mortgage is secured on their plant, and is a first class investment. The bonds can be obtained of Wintersteen, Beckley & McKillip.

A FORTUNE
Inherited by few, is pure blood, free from hereditary taint. Catarrh, consumption, rheumatism, Scrofula, and many other maladies born in the blood, can be effectually eradicated only by the use of powerful alteratives. The standard specific for this purpose—the one best known and approved—is Ayer's Sarsaparilla, the compound, concentrated extract of Honduras sarsaparilla, and other powerful alteratives.

"I consider that I have been
SAVED
several hundred dollars' expense, by using Ayer's Sarsaparilla, and would strongly urge all who are troubled with lameness or rheumatic pains to give it a trial. I am sure it will do them permanent good, as it has done me."—Mrs. Joseph Wood, West Plattsburgh, N. Y.

Dr. J. W. Shields, of Smithville, Tenn., says: "I regard Ayer's Sarsaparilla as the best blood medicine on earth, and know of many wonderful cures effected by its use."

"For many years I was laid up with Scrofula, no treatment being of any benefit. At length I was recommended to give Ayer's Sarsaparilla a trial. I did so, and
By Taking
about a dozen bottles, was restored to perfect health—weighing 230 pounds—and am now a believer in the merits of Ayer's Sarsaparilla."—James Petsy, Mine Boss, Breckenridge Coal Co. (Limited), Victoria, Ky.

"My niece, Sarah A. Losee, was for years afflicted with scrofulous humor in the blood. About 18 months ago she began to use Ayer's Sarsaparilla, and after taking three bottles was completely cured."—E. Caffall, P. M., Losee, Utah.

Ayer's Sarsaparilla
Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. Price $1; six bottles, $5.

What is
CASTORIA
Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhœa and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.
"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."
DR. G. C. OSGOOD, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."
DR. J. F. KINCHELOE, Conway, Ark.

Castoria.
"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."
H. A. ARCHER, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."
UNITED HOSPITAL AND DISPENSARY, Boston, Mass.

EARLY TRAINING.

To one who has given a moiety of thought to the struggle of a child in trying to see what his teacher means, who remembers his own blind faith, when required to recite "the world is round like an apple" (we used to wonder which apple) or to recite the nine times backward, the kindergarten presents itself as a belated luminary.

This important foundation stone for all successful teaching was long rejected by the builders and even at its renaissance so hidden by the fossilliferous stratum of self conceit and unwillingness to "ring out the old" that a universal recognition of its untold value is still in the future.

It has been said "Je pence, dons je suis", (I think, therefore I am.) To aid the proper development of this positive proof of existing capable intelligence—not prematurely thus taxing the mental powers beyond healthful endurance but by nature's own beautiful method is the aim of the kindergarten.

Children are not ready made machines but growing plants, reaching out in every direction and eagerly absorbing from their environments whatever will tend to supply the demands of the increasing capacity for thought-food; not however, in all instances selecting the most desirable nutriment.

Hence the necessity for intelligent direction that this early development may assume a form of intellectual symmetry and moral beauty that shall be a joy forever. Where is the mother who has not, at some time, received heavenward inspirations from the pure and beautiful thoughts expressed by her wee ones, or is not daily questioned during her busiest hours as to the "why's and wherefore's" of what her three year old boy sees from the window! What energies of soul lie there waiting to be brought into action by judicious leading!

Freobel gave this matter long and earnest deliberation. He saw that a child could be taught and not be worried and to this end brought into the work such appliances as the child could joyfully seize and therefrom gain *ideas* of color, form, comparison, moral quality etc., gaining during the "awakening" a desire to know more of these things, to interpret the printed descriptions for themselves so that study should not be an imposed burden but an object inviting diligent and earnest search.

'RAH FOR GROVER CLEVELAND.

What a mighty, mighty army moves the Democrats along!
To the polls just see them rushing fully seven million strong!
Grover Cleveland is our leader and we're sure to win the fight,
Battling for our Country's honor, for the truth and for the right!

'Rah! 'Rah, 'Rah! for Grover Cleveland.
From the lakes to old Swanee;
Grover Cleveland wins the battle,
Cleve and Steve 'twill surely be.

Southern Democrats are saying, We are sure to win the day,
Northern patriots are with us, and they've surely come to stay,
In the West we're strong, and Stevenson will make us stronger too,
While the Eastern States are sure to vote for Grover, tried and true.

Chorus.

Harrison and all his party of Repubs are on the run,
Scared to death by Grover Cleveland and the Democratic gun,
Off will go the heads of thousands as we turn the rascals out,
So go 'long with the procession and be with us at the rout.

Chorus.

The above song is published by A. J. Showalter Company, Dalton, Ga., at 25 cents dozen, $1.00 per 100.
